INVOCATION

May the Light in me be the light before me
May I learn to see it in all.

May the sound I utter reveal the light in me
May I listen to it while others speak.

May the silence in and around me present itself,
The silence which we break every moment,
May it fill the darkness of noise we do
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,
Let realisation be my attainment,
Let my purpose shape into the purpose of our earth,
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.
May we live in the awareness of the background.
May we transact light in terms of joy.
May we be worthy to find place in the Eternal Kingdom OM.

Master E.K.

PRAYER FOR THE YEAR

Wash karma in Space.
On the deep blue slate paint
ever-elevating colours,
ever at the Feet of the Master
in the Vaisakh Valley.

MESSAGE OF THE MONTH OF AQUARIUS

Aquarius full moon happens when the moon is in the *Makha* constellation, which is in Leo. The transit of the sun through Aquarius sows seeds of change in the month of Aquarius. Each change brings along its related speed, an aspect of Aquarius.

An intelligent student needs to tune into the energies of Aquarius to cope up with the changes and the related speed. Contemplation upon and singing of *Gayatri* is helpful for this purpose. Sundays are considered special for this purpose in this month.

Change is constant in Nature. Changes are normal in human life. All changes happen upon the basis of unchangeability. The existence and the awareness remain unchangeable while the play of the three qualities carry out changes through time in space. The whole Creation is a product of the play of triangular forces. The beings in Creation are also subjected to such changes. But if one stands beyond the triplicity of forces as “I am”, one can visualize the changes happening in and around and conduct oneself appropriately in the changing situations.

Changes are favourable and unfavourable too. Regardless of their favourability or un-favourability one needs to act - to do what is to be done. In the new age innumerable changes happened. They are happening now. They will continue to happen. Some people foolishly resist the change. They are anti-modern. They cannot but follow the change. There are some others who hug the change admonishing the past. They too are lost in the change. The intelligent way is to stand by the values in relation to the past, present and the future. It enables anchorage.

The air of Aquarius is experienced as windy. The wind takes away all and yet retains the values of all times. Comprehend the science of values and stand by them. Do not blindly follow the religious values with superstition. Put all traditional values and modern values to the test of the unbiased scientific mind.

MESSAGE OF THE TEACHER

WAKE UP TWICE

In dream there are so many characters,
so many events and so much of variety.
When you wake up, none of them is found real.
Life is nothing but a bigger dream.
When you wake up for a second time,
none of the life events seem to be real.
Man needs to wake up twice to know the Truth.

GÎTÂ-UPANISHAD

- LORD KRISHNA -

SOCIAL WELFARE

All human action is linked to society. Social activity is based on the individual action (karma). The humans cooperate with the society through their employment, business, industry, etc. This cooperation is an act of welfare, meaning, all individual actions need to fulfil the requisite of social welfare. Such ones are taken care of by the society. The society protects them and respects them even. They are the models of action.

Action should therefore be seen as oriented to social welfare in preference to individual welfare and such action should be carried out with dispassion, dutifulness and equanimity.

A WORD FROM MASTER CVV

SOFT MUTATION

I speak to you soft.
This is due to the love I hold for all.

Love speaks soft.
My soft instructions may not be taken softly.
You need to take them sincerely and work them out.
You need to be firm
to adapt to the instructions given by Me,
which seem soft.

If you do so
I shall conduct the changes in you
as soft as My instructions.
I shall cause soft mutation
and let you experience the subtle.

LORD MAITREYA

CONTRIBUTION TO THE TEACHER

Your internal and external purity is a value to the Teacher.
Your demonstration of the teachings is a value to the Teacher.
Your teaching of the values you demonstrate is a value to the Teacher.
Your clarity in thought, speech and action is a value to the Teacher.
Your repeated teaching with patience is a value to the Teacher.
Contribute such value and gain the favour of the Teacher.

MASTER MORYA

- MARUVU MAHARSHI -

THE CHANGE

The sweeping changes in the contemporary time should be understood as the work of fire.
In conflicts, disputes and wars you frequently encounter fire.
See the fire in action besides seeing the events.
Then you will understand the fast changes carried out by fire.
Every work of fire brings purity.
This is the understanding of the subtle world.
Your understanding of the events is mundane.
There is a super-mundane understanding which needs to be gained.
This helps you to comprehend events from the global stand point.
Otherwise your comprehension remains a local stand point,
a localized view point.

MASTER KOOT HOOMI
- DEVAPI MAHARSHI -

ALIGNMENT

Life without alignment is artificial.
It remains worldly. It carries no peace.
It binds man in varieties of ways.

When there is no alignment in you,
what you speak and what you do in the public
is an action on the stage.
What you are and what you project remain different.

Nonalignment is a state of sickness.
Confusion and aggrandisement are its qualities.
Transparency does not exist.
You cannot progress in spirituality without working for alignment.
You may speak sermons but your nature remains otherwise.
You land in double standards and you live in conflict.

Shed all show-life and start in right earnest
to be in alignment.

MESSAGE OF MASTER E.K.

THE LAST THOUGHT

The last thought before your sleep
is the thought with which you wake up.
The quality of the last thought decides the quality of the next day.
Be intelligent enough to extend the logic to the last thought before
you depart.
If you depart with a qualitative thought,
you come back into a qualitative life in the next incarnation.
Death is but sleep in a longer duration.
When you depart with practices of discipleship,
you continue the discipleship in the next life.
Such is the Path.

VIDURA

WISDOM TEACHINGS

Self-praise,
disinclination to serve,
and thoughtless action
arise out of utter ignorance.

SHIRDI SAI SAYINGS

MAN SACRIFICE

In the age of Kali, there is no ritual more sublime than offering. Offer that which you can unto others in the name of God. This is the sure way to liberation.

Cursed is the hand that shirks to give and blessed is the hand that nourishes and protects. Offer without restrain food, clothing and shelter to as many beings as you can.

If you can offer yourself to a noble cause in life that is the ultimate of the ritual of offering called "Man Sacrifice".

CHILDREN'S SECTION

THE DOCTRINE OF ETHICS

The merchant is the life
of the village
Water is the life
for the paddy field.
The trunk is the life
for the elephant.
The woman is the life
for splendour.

CHILDREN'S SECTION

THE RIGHT USE OF FOOD

Food and Love

Our mothers too nourish us with Love. Is it not? It is therefore, better that we eat food prepared by our mother than food prepared with commercial motives. In mother's food there is no commercial motive. In bakeries, restaurants and hotels and also in many social parties the motive remains commercial and hence the food carries less value when compared to mother's food in terms of vibrations. Eating at home is therefore, preferable to eating elsewhere.

Where food is cooked and served with Love, there health is restored. Many men of wisdom therefore believe in cooking and serving personally. They not only serve food but also their love and their magnetic vibrations along with the food. Hence health is rejuvenated when such food is taken. It is not mere food. It is food made sacred. It carries higher values.

BOOK REVIEW

SCIENCE OF HEALING

Healing is the age-old art of mankind. The origin of life includes the origin of the principles of life preservation. All the ancient nations have their own approach to the Art of Healing. The present age of materialism in medicine has narrowed down the scope of healing but it is a passing through a phase which is necessary before a rediscovery of the ancient truth.

A few lectures which Dr. Ekkirala Krishnamacharya gave out at different places in the Occident have been gathered and published in this book. This contains all the seeds of the various branches of the Healing Wisdom of the ancients.

THE PATH OF SYNTHESIS

The process of learning is to include. As much as we include others, so much we are included by those whom we follow. If we exclude people and then seek inclusion by the ones whom we follow, they also exclude us. You include those who come to you, you are included by those whom you follow. That is how it is with the nature. That is the Path of Synthesis.

This is a talk rendered on 29-05-1995 on the Yoga of Synthesis expounded by Master CVV, at Kirchheim, Germany. It refreshes one's own thought and enchants one into a state of „presence“.

NEWS - REVIEW TOURS OF THE TEACHER

Extracts from the WTT-Europe Annual Report 03/04

37th Intercontinental Tour, 6 -29 September 2003

Kandersteg (Switzerland), 6-9 September 2003

More than 150 members attended the group living. In the morning the Teacher spoke “On Healing”; in the afternoon, time was dedicated to the structuring and organizational aspects of the publication, printing and distribution of the „Paracelsus - Health & Healing Magazine”, as well as an estimate of the financial aspect relating to it. It was decided that the magazine should be published in three languages. Groups of translators from Germany, Spain, Argentina, Miami and Switzerland were formed to cope with the publication of the magazine in three languages. It was agreed that the co-ordination would be done from Switzerland. The issue no. 1 was released two months later, during the Full Moon of Scorpio. The magazine appears every month and has 500 subscribers all over the world.

A German version of the book “Saraswathi - The Word” by the Teacher K.P.K. was released during the group living.

Tour of Argentina

1. Foz do Iguaçu, 9-11 September

The Argentinean group was overjoyed to receive the Teacher again after two years of his physical absence. 150 people from all over Argentina gathered for the event at Hotel San Juan. The Full Moon of Virgo was celebrated under the auspicious presence of our dear Teacher. Two fire rituals were performed. The Teacher took the group to the heights through the subject “The Ultimate Portal”. In the decoration of the altar, the symbol of an equilateral triangle with a central point inside a circle had been placed, and that symbol inspired the Teacher to speak on the point of entrance towards the Ultimate.

The group visited the Waterfalls from the Brazilian side.

GROUP FORUM NEWS & ACTIVITIES (Inputs welcome)

Group reports: Germany

Name of the group: Dem Frieden Dienen e.V. - Gopura

Contact: Christina Ambach, dem_frieden_dienen@t-online.de

Activities

For the group the year 2004 was a year of learning, adapting and of going out with the work of the WTT and standing in the public. The work with the Paracelsus magazine brought totally new aspects of group consciousness. We had the chance to experience that this great service of healing had already been prepared for a long time and that people with love for humanity and responsibility work for it world-wide. With the help of doctors we got the chance of participating in conferences, meetings and seminars. As a recognition the group had baked each time cookies and laddus. It is impressing to see how many doctors are researching with inspiration and are manifesting what the Masters of Wisdom offer as healing possibilities for this century.

In farming we made important experiences with the knowledge of Prof. Higa from Japan about the Effective Micro-organisms investigated by him. Here an international cooperation is on the way.

In the field of education the cooperation with different schools was effective and favourable.

In the Gopura-Center there were several meetings with musicians and persons responsible for art and culture.

The highlight was the seminar in Bad Meinberg jointly arranged by all German groups and the visit of Master K.P. Kumar with his family at Gopura.

Further activities are: Children and senior citizen work in hospitals, homes as well as integration of asylum seekers, hospice work and mourning escort together with different organisations. We sustain the tasks of the WTT together with all international groups.

EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part V

Dr. Sri K. Parvathi Kumar

Peñíscola Group Living, Spain, June 2003

Today the whole humanity is conditioned by Libra, in the sense of money, sex and comfort, and for personal aggrandisement. That is why you have to relate the Lady of Libra to the Lady of Virgo/Leo. Please, remember the Sphinx, the Lion Lady. Leo/Virgo was one sun sign. Slowly Virgo separated from Leo. If it separates from Leo, it is not such a danger, but it associated with Libra. The Lady who associates with Leo is a noble lady. The Lady Virgo is a virgin lady, a pure lady. But she degenerated from nobility to purity and from purity to vanity of Libra. She is the human personality. The human personality is the feminine. This personality in Leo is associated with the lion in Leo. Now the lion is caged in the cave. The personality has arrested the soul and moved into passion. That is how Leo/Virgo degenerated into Virgo/Libra. This is how astrologically it is explained. That is why there is the need to worship and to meditate the lady mounting on the lion, Durga. The lady with the lion body, the Sphinx, disappeared, and today the personality relating to us is like the tiger.

So, remember Leo/Virgo as the soul infused personality, Virgo as the pure personality, and Libra as the passionate personality. If Virgo is related to Leo, or Virgo is related to Scorpio, Libra remains a fulcrum. Leo/Virgo was the past. Virgo/Scorpio is the future. For the present we are in-between. That is why for us duality is a recognised fact.

A short recollection:

Libra divides the zodiac into five pairs of signs with Aries, Taurus, Gemini, Cancer and Virgo as the five expressive energies, the characteristics of which were given with

- Aries as the out-going life,
- Taurus as the directed desire,
- Gemini as dual consciousness - male, female
- Cancer as incarnation, manifestation, and through that to
- Virgo/Leo - the soul and the personality.

This is the expression into objectivity through five sun signs.

- Scorpio is marking the reversal of the direction,
- Sagittarius is marking the discipline of discipleship,

- Capricorn is marking the initiation,
- Aquarius is marking the world service, and
- Pisces is bringing out the culmination into the world saviour.

That is how the zodiac was worked out of five pairs of ten sun signs with Libra as the fulcrum. In this zodiac Virgo was associated with Leo. Libra was only functioning as the fulcrum, but was not carrying out the function of passion. Through time, where there is the symbolic fall, humanity entered into Libra, and there is passionate life. Desire by itself is not sin. Inappropriate use of desire causes passion. Desire is essential divine. But when the desire is abused, then passion raises. When a child is born, Libra is not yet formed. Libra is formed between the 7th and 14th year, because during that time the generative organs are being prepared.

In Kali Yuga, the Yuga of passion, the Yuga of fall, the so-called dark age, in the zodiac it is represented by 15° Virgo, 30° Libra and 15° of Scorpio. These parts are 60° together. The child before 7th years has no passion, has no male-female interaction. Even the voice of a boy and a girl remains the same. The male voice changes between 7th and 14th year. The resultant effect is the throat centre. That is why the throat centre of the lady is related to the female organ, the breast. All breast problems are throat problems. That is why there is so much of breast cancer among ladies, and also throat cancer among males and females arising out of excessively passionate living.

So, when Libra is formed, it separates Virgo and Scorpio, and the perfect zodiac of 10 sun signs becomes an imperfect zodiac of 12 sun signs. The consequent effect in the human body is a modification in the sacral centre by the throat centre. To regain the perfect zodiac we have to renew the sacral and the throat. Throat is the superior aspect of the sacral. If we work with adequate responsibility vis-à-vis our thoughts, speeches and acts, we can gradually overcome the passion.

When the passion aspect of Libra disappears, the unfolding faculty of Libra, from centre to circumference, happens. The *chakras* in the body transform into flowers, and you become eligible to gain lotuses in the place of *chakras*. For example the lotus between the sacral and the base centre, which is called the higher *Muladhara*, it unfolds. Then the next lotus happens at the higher heart centre which has eight petals. The heart *chakra* has 12 petals, but now you have a higher heart centre with 8 petals of lotuses. The third lotus is *Ajna*, and the final lotus is *Sahasrara* with the thousand petals.

These are the four lotuses, when Libra disappears and Virgo/Scorpio become one sun sign, and the higher *Muladhara* lotus takes position in Sagittarius. The higher lotus of heart takes position in Capricorn. Capricorn is the higher heart centre, where you have the 8-petalled lotus. Aquarius is the

higher *Ajna*, not even *Ajna*, and in Pisces you have the 1000-petalled lotus decorated by the gem - *mani padme hum*. That is how the transformations happen via Libra.

Libra can cause instant formation of the *Antahkarana*. You can overcome passion, but not when you suppress passion. That is the difference. You should be informed about the consequences of passion and you should be allowed to rule yourself. This is the way of wisdom. Through your own functioning you find the consequences of being passionate which is conflict. You also find the consequences of not being passionate, which is harmony. At every level there should be information, not imposition. Even the Masters of wisdom inform. They are not influencing. They express, but they do not impress. It is for you to get impressed. This is the respect for a co-being, where there is freedom, but not possession. That freedom is an aspect of friendliness.

Today we are in dualism, in the pairs of opposite. The personality says something, the soul says something, and the body says something else. You are pulled in different directions. That is the state in which we are. Hence, we are trying to get out of the whole thing in a process of experimenting. Man is trying to make many experiments to see how he can live in harmony. He is trying to break traditions. The impulse to break traditions is coming out of the urge to gain freedom. The tradition is the value of the past, but the value of the past also gets distorted through time. Consequently it is more superstition than science. The belief does not enable any reasoning out, and the belief is degenerating into superstition.

The Aquarian age which is an age of science will put everything to a scientific test. All traditions that stand the test of science will survive. Others will go. The science of the past gradually became tradition. Tradition became a belief, and belief degenerated into superstition. So, the tradition has something relating to truth and something relating to the untruth hovering it. That is why the humanity is at experiment risking itself in the experiment. There are many lives that are burnt in experiments, but then each time you experiment, you gain the related experience. Don't blame those who break the tradition. Unless you give them the science behind the tradition, they are not willing to follow. This is because man is able to think by himself today. He can no more be a blind follower.

PARACELSUS HEALTH AND HEALING

MANIFOLD CAUSES FOR DISEASES

Healing to ultimate perfection of health remains only an ideal. It is not practical. Many schools of health may be affirmative of such perfect healing and health. They are only high-sounding phrases, expressing their good intention. Perfect health and perfect cure are like perfect man and perfect environment. The effort towards perfection is possible while perfection is not possible. The seers of ancient times never said, "Be perfect"; they only said, "Trace perfection". This is because only Truth (or God) is perfect.

The cause for diseases is manifold and not as simple as a gullible practitioner thinks. It is not possible for man to understand the deep-seated causes, resulting in variety of diseases.

All disease is the result of lack of harmony between life and the form that envelops life. The needs of the form, the needs of the man who dwells in it, and the needs of the society are at variance. This continually breeds conflict. Yoga was considered to be a discipline by which man can harmonize himself with his body and with society. But accomplishment through this means is a rare phenomenon. Very few turn out to be real yogis, while many are regretfully fake. Alignment of the man with his form, his subjective feelings and objective expressions is the basic requirement of yoga, which is seldom found.

The planet where we all live it is itself considered to be evolving and is therefore not considered as carrying ideal conditions. Astrology considers the planet earth as a malefic planet, in evolution. It is still considered awaiting its Mastery. This imperfection of the planet results in imperfect bodies of the humans, besides the animals and the plants. This imperfection has an impact on health. It causes diseases.

Lack of harmony, producing what we call disease, extends to all forms of life on the planet such as animal, plant etc. The man, who lives on plants and animals, is incessantly exposed to their energies. The recent mad cow disease, the excessive fertilizing of fields with chemicals, already produced enough disease and will continue to do so at different parts of the planet.

Man's mental and emotional activity latently and constantly produces diseases. Man's struggle for freedom and his resentment of suffering produce conflict in him, which also contributes to diseases. Man has resistance to pain, to death, to disappointment, to failures and the consequent conflict. The law of non-resistance is seldom realized as the key to health. The mentally developed man's resistance to the flow of events, his attitude of non-acceptability of life situations, is also seen as a means of disease.

Intense antagonism to disease energizes the disease, for man supplies his energy to the disease by thinking at all times of avoiding it. There is the psychological phenomenon in man to repeatedly think of what he does not want. Such continuous thinking energizes that which he does not want. This secret in man is also not known to him. Negative thinking relates to the South Pole. South pole is a receptive pole; it gathers through negativism. Through negative desiring we invite that which we wish to avoid.

Thus the disease cannot be seen as the result of wrong human thoughts only. Health workers, healers and medical practitioners need to know as many dimensions as possible, relating to the cause of sickness, before a cure is attempted.

Let the soul control the outer form
and life and all events,
and bring to light the love
which underlies the happenings
of the time.

Let vision come and insight.
Let the future stand revealed.
Let inner union demonstrate
and outer cleavages be gone.

Let love prevail.
Let all men love.

Master D.K.

OM is a triple sound consisting of AUM.
A stands for spirit,
U stands for force,
M stands for matter.

Uttering OM can be with emphasis
upon everyone of the 3 sounds
depending upon the need for invocation
of spirit, force, or matter.
Magicians use them accordingly.
The synthesis of the 3,
when realised through utterance,
man knows himself.

Utter OM, listen to it and synthesise the 3 in you
to experience the beauty of your soul.
